

SHELBY SUPER SNAKE

Shelby's new Super Snake Mustang ushers in a new era of automotive excitement, boasting a range of thrilling features designed to redefine performance for the next generation S650 Mustang. With a striking all-new look, this iteration of the Super Snake stands out as the most engineered and driver-focused production model to date. Its heart-pounding performance is driven by an impressive 830+ horsepower supercharged V8 engine, meticulously calibrated to deliver exhilarating power and performance.

Key features of the Super Snake Mustang elevate its performance to new levels. The vehicle's focus on air management and cooling ensures optimal performance in even the most demanding driving conditions. Lightweight magnesium alloy wheels contribute to enhanced agility and responsiveness, while the use of advanced materials such as carbon fiber reduces weight and improves overall performance. With meticulous attention to detail, every aspect of the Super Snake's design is crafted to maximize performance and driving enjoyment.

For enthusiasts eager to experience the thrill of owning a Super Snake Mustang, act quickly as production will be limited in the United States, with limited availability worldwide for the 2025 model year.
